USER'S MANUAL

32" LED TELEVISION

Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15. **WARNING:** To Reduce The Risk Of Fire Or Electric Shock, Do Not Expose This Apparatus To Rain Or Moisture.
16. Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be palced on the apparatus
17. The mains plug or appliance coupler shall remain readily operable.
18. **Use in outdoor:** This TV is not designed for outdoors installation. Do not expose the TV to rain, as it may result in a fire or an electric shock. Also, do not expose the TV to direct sunlight, as it may heat up and become damaged.

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

Safety:
TO REDUCE THE RISK OF ELECTRICAL SHOCK DO NOT REMOVE COVER
(OR BACK). NO USER SERVICEABLEPARTS ARE INSIDE. REFER TO QUALIFIED
PERSONNEL ONLY.

Dangerous Voltage: The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to thepresence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitudeto constitute a risk of electric shock to persons.

Instruction: The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and servicing instructions in the literature accompanying the appliance.

Safety Instructions

Important safeguards for you and your new TV

Observing the simple precautions discussed in this booklet will provide you with many years of enjoyment and safe operation.
This product complies with all applicable US Federal safety requirements, and those of the Canadian Standards Association.

1. Read & Follow Instructions
All safety and operating instructions should be read and followed before the TV is operated.

2. Retain Instructions
The safety and operating instructions should be retained for future reference.

3. Heed Warnings
All warnings on the TV and in the operating instructions should be adhered to.

4. Cleaning
Unplug the TV from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a soft and slightly damp cloth for cleaning.

5. Water and Moisture
Do not use this TV near water, for example, near a bathtub,wash bowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool.

6. Accessories Carts and Stands
Do not place this TV on a slippery or tilted surface, or on an unstable cart, stand, or table. The TV may slide or fall, causing serious injury to a child or adult, and serious damage to the TV.

7. Transporting the Television
A TV and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the TV and cart combination to overturn.

8. Ventilation
Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the TV and to protect it from overheating, and these openings must not be blocked or covered. The openings should never be blocked by placing the TV on a bed, sofa, rug, or other similar surface. The TV should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided.

9. Power Sources
This TV should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your electronics retailer or local power company.

10. Power-Cord Polarization
This TV is equipped with a three-wire grounding type plug,a plug with a third (grounding) pin. This plug will only fit into a grounding-type power outlet. This is a safety feature. If you are unable to insert the plug into the outlet, the contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the grounding-type plug.

11. Power-Cord Protection
Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs,convenience receptacles, and the point where they exit from the TV.

12. Lightning
For added protection for the TV during a lightning storm, or when it is left unattended and unused for long periods of time,unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the TV from lightning and power-line surges.

Safety Instructions

13. Outdoor Antenna Grounding

If an outside antenna or cable system is connected to the TV be sure the antenna or cable system is grounded so as to provide some protection against voltage surges and built up static charges. Article 810 of the National Electrical Code (U.S.A.), ANSI / NFPA 70 provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connect on to grounding electrodes, and requirements for the grounding electrode.

Example of Grounding According to National
Electrical Code Instructions
NEC - National Electrical Code

14. Power Lines

An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall on to power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

15. Overloading

Do not overload wall outlets and extension cords as this can result in a risk of fire or electric shock.

16. Object and Liquid Entry

Never push objects of any kind into this TV through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on or inside the TV.

17. Servicing

Do not attempt to service this TV yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

18. Damage Requiring Service

Unplug from the wall outlet and refer servicing to qualified
service personnel under the following conditions:
 a. If the power-supply cord or plug is damaged.
 b. If liquid has been spilled, or objects have fallen into the product.
 c. If the TV has been exposed to rain or water.
 d. If the TV does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation.
 e. If the TV has been dropped or the cabinet has been damaged.
 f. If the TV exhibits a distinct change in performance.

Safety Instructions

19. Replacement Parts

When replacement parts are required, be sure that only an authorized service technician has used replacement parts specified by Apex Digital or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards and void any warranty.

20. Safety Check

Upon completion of any service or repairs to this TV, ask the service technician to perform safety checks to determine whether the product is in proper operating condition.

21. Wall Mounting

The TV should be mounted to a wall only by a professional. The TV may slide or fall, causing serious injury to a child or adult, and serious damage to the product. Warranty shall be voided.

22. Heat

The TV should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including) amplifiers) that produce heat.

NOTE TO CABLE / TV INSTALLER:

This reminder is provided to call the CATV system installer's attention to Article 820-40 of the National Electric Code(U.S.A.). The code provides guidelines for proper grounding and, in particular, specifies that the cable ground should be connected to the grounding system of the building, as close to the point of the cable entry as practical.

FCC REGULATORY INFORMATION:

This television has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This television generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this television does cause interference to other electronic equipment, which can be determined by turning the television off and on, then the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.- Increase the separation between the equipment and television.
- Connect the equipment into an outlet on a circuit different from that to which the television is connected.
- Consult your dealer or an experienced radio / TV technician for assistance.

Any changes or modifications not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment.

Table of Contents

Thank you for purchasing the energy efficient 32E800 television. It has been designed to enjoy today's high definition television experience. With a display resolution of 32"1366X768 you are assured of one of the finest quality televisions available today.

Your television provides both analog and digital inputs including one (1) High Definition Multimedia Interface (HDMI) interconnects for the purest audio and video digital signal when connected to compatible HD sources (ie: HD set-top box, high definition DVD player or gaming console).

We recommend that you read the user manual thoroughly before use to familiarize yourself with the installation and adjustment options available to you; thereby, enjoying all the features of the 32E800 for many years to come.
The 32E800 package includes the following items. Save the carton & packing for future shipping

* **Remote Control**
* **AAA Batteries (2)**
* **Quick Start Guide**

Remote Control   Battery Install

Your remote control handset is powered by two (2) AAA type batteries

• Turn the remote over and remove battery cover.

• Place two (2) "AAA" batteries into the battery compartment with the "+" and "-" ends facing as indicated.

• Replace the cover

- Effective remote range is approximately 16 feet at an angle of no greater than 30° to the left / right or 20° up / down to the IR sensor.

- To avoid possible damage from battery chemical leakage, remove the batteries if you do not plan to use the remote for an extended period of time. Do not mix batteries of different age and / or type. Always discard used batteries safely.

- Do not expose the remote control to liquids, direct sunlight or sources of excessive heat.

- The IR receiver on the TV will not work properly if the set is in direct sunlight.
NOTE: Improper use of batteries can result in a chemical leakage or explosion.

IR Receiver

Cable / Satellite Remote Control Codes:
NOTE: The remote control from your Cable/Satellite provider can be programmed to operate most of the major functions of this TV model which include: **POWER, INPUT / SOURCE, VOLUME +, VOLUME - , CHANNEL +, CHANNEL - , SELECT/OK/ENTER** (based on your remote), and **NUMBER** buttons. For non-major TV functions not listed, use the remote control included with this TV.

To program your Cable / Satellite remote to operate this ETEC TV, follow the programming instructions included with your providers' remote and use the following codes.

Comcast or Direct TV : 10030
AT & T (U-verse) : 1043
Dish Network : 506
RCA Universal : 0030

IR Receiver
A Green/Blue light illuminates When
the television power is on.
1. **POWER** - Press the **POWER** button to turn the TV ON/ OFF (standby). The screen image will appear within a few seconds, and the LED will turn on.

2. **INPUT** - After connecting your DVD, cable box, etc. select the appropriate input source to view. Press the **INPUT** button to display the input options. Press the **CH+ / CH-** buttons to highlight the input source and press the **VOL+** button to select.

3. **MENU** - Press the **MENU** button to display. Press **VOL+** to select from the 6 menu options available. Press the **CH+ / CH-** buttons to select a feature from the selected menu then press the **VOL+/VOL-** buttons to adjust the volume settings.

4. **Channel (-CH+)** - Press the **CH- / CH+** buttons to select a channel in the TV mode.

5. **Volume (-VOL+)** - Press the **VOL- / VOL+** buttons to adjust the volume up or down.
Wall Mounting

It is recommended that you consult a professional before mounting this TV a wall.
Use VESA 200 x 100 wall mount hardware.

NOTE: You must remove the pedestal before wall mounting.

1. Headphone Jack - Connect a stereo headphone (not included) for private listening.

2. SPDIF - Connect an optional coaxial digital cable (not included) through a compatible amp / receiver to enjoy superior audio sound.

3. AV Input - Connect an external device to the composite VIDEO(Y) and AUDIO (L / R) out jacks found on most video equipment.

4. Component Y Pb Pr Input - Connect to an AV device that features component (Y Pb Pr) video and audio output jacks.

5. HDMI Input - Connects to digital AV equipment that feature HDMI connectivity. HDMI supports enhanced high definition video and up to 7.1-channel digital audio all from one cable. Recommended for best performance. HDMI cable not included.

6. PC IN - VGA Input - Connect an optional VGA cable (not included) from your personal computer.

PC Audio Input - Audio cable (not included) for sound.

7. RF Input - Connect an antenna or cable connection for television reception.
Note: Use an outdoor antenna, cable or satellite for best reception.

8. USB Input Port - Connect to portable USB device such as USB flash / hard drive, supports MP3 and JPEG.

Installation

It is strongly recommended that the installation of a high quality roof top antenna, digital cable, or satellite set top box be used in conjunction with your television for best broadcast reception. For indoor use, we recommend an Apex Digital amplified HDTV antenna. Note: reception is determined by your regional location, geographical terrain, distance from the local broadcast transmitter and strength of antenna.

Roof Antenna / Cable Outlet Installation

HDMI2	HDMI3 (MHL)	PC IN VGA	AUDIO	RF IN	USB

Ant. / Cable
Wall Outlet

How to connect with an indoor or rooftop antenna

- Connect the RF coaxial (75 ohm) cable from your existing roof top / in door antenna, or wall outlet. Finger tighten the Coaxial / RF Cable end to the TV input on the panel.

- Tune to TV programming directly from the television tuner.
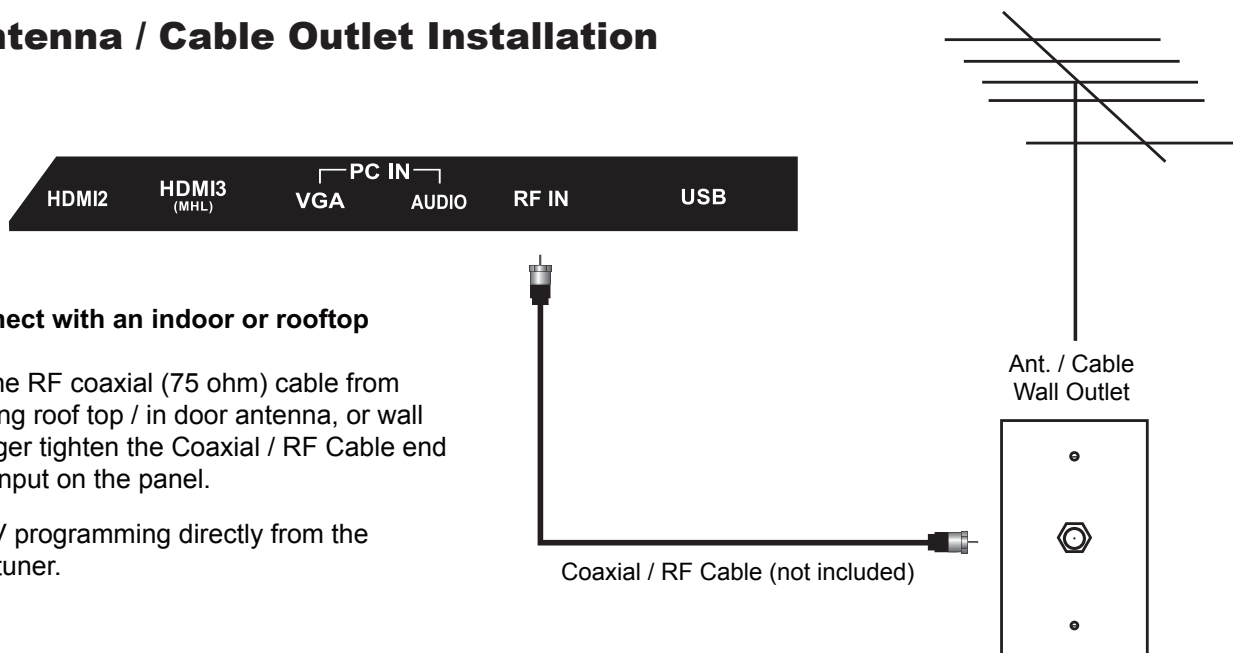

Coaxial / RF Cable (not included)

## Digital Cable / Satellite Set Top Box

HDMI cable (not included)

HDMI1 (ARC)   HDMI2   HDMI3 (MHL)   PC IN   VGA   AUDIO   RF IN

Cable / Satellite set top box

Coaxial / RF Cable (not included)

How to connect with Digital Cable / Satellite Set Top Box

• Connect the RF coaxial (75 ohm) cable from the video outlet of your cable / Satellite box to the RF input on the TV's panel. Select Ch. 3 or 4 on the TV and select a channel.

• For greater performance, if possible, use component or an HDMI installation(shown). Refer to your set top box user manual.

Connecting to an HD Set-Top Box or High Definition DVD Player Using HDMI

Digital set top box, gaming console,or Blu-ray w / HDMI interface

HDMI1 (ARC)   HDMI2   HDMI3 (MHL)   PC IN   VGA   AUDIO   RF IN

HDMI cable (not included)

For BEST video performance

Connect to external equipment that offers HDMI, an uncompressed, all digital video / audio interface found on today's HD digital set top boxes and Blu-ray players. Use of this pure digital technology offers enhanced high definition video and digital audio all via a single cable.

There are three (3) HDMI inputs available for use with HD set top boxes, gaming consoles and HD DVD / Blu-ray players.

HDMI2
HDMI3
VGA
Media

How to Connect HDMI

• From your external digital equipment, connect an HDMI cable from the HDMI output to the HDMI input on the TV's panel.
How To Use

• Press the **INPUT** button on the remote control. Use ▼▲ arrow buttons to highlight the input to view (HDMI1,2,3) then press **ENTER** .

Connecting External Equipment to Component Video IN (Y Pb Pr)

SPDIF   L   R   V/Y   Pb   Pr   HDMI1 (ARC)

Component cables (not included)

R   L   Y   Pb   Pr

Digital set top box, gaming console or DVD

For BETTER video performance

Connect to external equipment that features component video output jacks for better performance. Use the Component Y Pb Pr video and audio inputs with a set top box, gaming console or DVD player.

How to Connect Component

- When connecting external equipment to your television, match the colors of the connecting jacks (Video: Blue, Green, Red; Audio: White / Red).

- Connect the optional component video cables (blue, green, red) (not included) from the video output jacks (Y, Pb, Pr) on your external equipment to the Component Y Pb Pr input on the TV's panel.

- Connect white / red audio cables for sound from the audio (L / R) output jacks on your external equipment to the AV L / R input jacks on the TV's panel.
How to Use

- Press the **INPUT** button on the TV remote control. Use ▼▲ arrow buttons to highlight the input to view(Component) then press **ENTER**.

Connecting External Equipment to AV Composite IN on your television

Audio Video Cable (not included)

Digital set top box, gaming console or DVD

For GOOD video performance

Connect to external equipment using optional video and audio cables. Composite output jacks are available on most set top cable / satellite boxes and DVD players. (HDMI and Component connections are recommended for the best performance.)

How to Connect Composite AV

• When connecting external equipment to your television, match the colors of the connecting jacks (Video: Yellow Audio: White & Red).

• Connect the yellow video cable from the video output jack on your external A / V equipment (i.e.: DVD player, set top box) to AV input on the TV's panel.

• Connect the white / red audio cables for sound from the audio (L / R) output jacks on your external equipment (i.e.: DVD Player, set top box) to the AV (L / R) jacks on the TV's panel.
How to Use

• Press the **INPUT** button on the remote control. Use ▼▲ arrow buttons to highlight the input to view (AV) then press **ENTER**.

Installation   Connection to a Personal Computer

Connecting a Personal Computer with VGA to your television

VGA & Audio Cable (not included)

Recommended computer display resolution:1366x768@60 Hz

How to Connect a PC
- Connect using an optional male to male VGA cable (not included) from your PC to the VGA input on the TV's panel.

How to Connect Audio sound
- Connect an audio cable (not included) from the computer's mini audio output jack to the audio input on the TV's panel.

How to Use
- Press the **INPUT** button on the remote control. Use the ▼▲ buttons to highlight the VGA input and press the **ENTER** button.

NOTE: If your PC uses a standard signal mode, the screen will adjust automatically .

Connection to a Home Theater Audio System

Digital cable
(not included)

SPDIF   L   R   V/Y   Pb   Pr   HDMI1
(ARC)

Connecting to a Stereo Receiver / Amplifier

Enjoy realistic sound from your home theater system through a stereo / receiver amplifier or Prologic sound system when connected to your AV equipment.

NOTE: When audio cables are connected to a stereo / receiver amplifier, no audio sound will be heard from the TV's built-in speakers.

Example: The diagram illustrates the connection of audio cables directly from your AV equipment (like a cable box) to a stereo receiver instead of using the audio (L / R) jacks on the TV's panel.

How to Use (Video)
Press the appropriate **INPUT** button on the remote. Use ▼ ▲ arrow buttons to highlight the input source to view and then press **ENTER**.

How to Use (Audio)
Select the appropriate input from your audio equipment.

*NOTE: Refer to the User Manual from your home theater equipment for recommended audio settings.

Initial Setup Wizard

Setup Wizard only appears when first turning the TV on and without channel scanning.

After connecting your TV antenna or cable wire, turn the television ON. The quick setup wizard will display on-screen. Select your preferred Picture setting followed by antenna options and performing Auto Scan to receive local broadcast channels that will be stored in the TV tuner memory.

The wizard will direct you to the TV menu to select antenna options and perform Channel Auto Scan. Channels found will be stored into the TV tuner memory.

How to Navigate:

- Press the ◀ ▶ arrow button to highlight **AIR / CABLE** based on your antenna connection.

- Highlight Start to Scan and press **ENTER**.

- **Channel Auto Scan** may take several minutes to complete.

After the Setup Wizard has been completed, please skip this page as your Cable/Antenna is already set up. The following instructions on this page are provided if you need to make changes at a later time.

NOTE: For Cable or Satellite users <u>WITH</u> a set-top box, there is no need to run Channel Auto Scan. Connect your cable or satellite set top box to one of the available inputs on the TV for viewing.

To enter the Channel Menu:
• Press the **MENU** button
• Using the ◄ ► arrow buttons; scroll to highlight **Channel**
• Press the down ▼ arrow buttons to highlight **Air / Cable**

Select **Cable** if you subscribe to a pay television service <u>WITHOUT</u> a set top box.

• Press the ◄ ► arrow buttons to highlight **Cable**

• Press the ▼ arrow button to highlight **Auto Scan** and press **ENTER**. Press **ENTER** to begin **Auto Scan**.
NOTE: Channel Auto Scan may take several minutes to complete.

Cable Mode

Select **Air** when TV is connected to an indoor / outdoor antenna.

• Press the ◄ ► arrow button to highlight **Air**.

• Press the ▼ arrow button to highlight **Auto Scan** and press **ENTER**. Press **ENTER** to begin **Auto Scan**.
NOTE: Channel Auto Scan may take several minutes to complete.

Air Mode

Menu Adjustments

The **Picture** menu offers options to enhance and refine the picture displayed on your TV based on ambient room light and personal preferences. Adjustment options include contrast, brightness, color, sharpness and color temperature.

How to Navigate:
Press the **MENU** button on the remote control. Navigate using ◄ ► arrow buttons to select **Picture**. Press the down ▼ arrow button to highlight **Picture Mode**, then press the ► arrow button to select your viewing preference from 5 factory options: EnergySaving > User > Standard > Dynamic > Mild. The Standard setting is recommended for most brightly lit viewing environments. Depending on the ambient light level in the room, you may find one of the other Picture settings more pleasing.

To make more critical adjustments based on your own preferences in User.

- **Contrast**
  Press down ▼ arrow button to highlight **Contrast**. Navigate using the ◄ ► arrow buttons to increase or decrease contrast intensity.
- **Brightness**
  Press down ▼ arrow button to highlight **Brightness**. Navigate using the ◄ ► arrow buttons to increase or decrease overall brightness.
- **Color**
  Press down ▼ arrow button to highlight **Color.** Navigate using the ◄ ► arrow buttons to increase or decrease color intensity.
- **Tint**
 Press down ▼ arrow button to highlight **Tint**. Navigate using the◄ ► arrow buttons to adjust colors toward green or reddish tint.
- **Sharpness**
  Press down ▼ arrow button to highlight **Sharpness**. Navigate using the ◄ ► arrow buttons to soften or view crisper edges in the picture.
- **Color Temperature.**
  Press down ▼ arrow button to highlight your
  Color Temperature. preference. Navigate using the ◄ ► arrow buttons to select Cool, Medium or Warm setting.
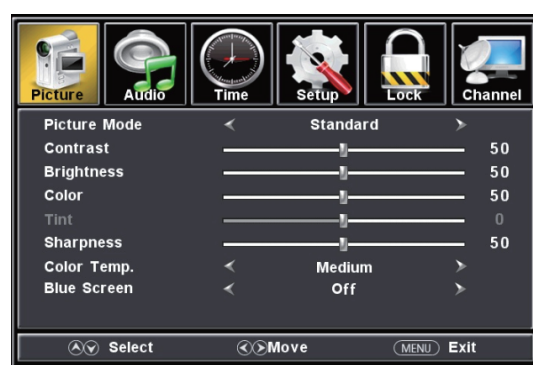

*The **Energy Saving** feature adjusts the brightness of the TV in order to save energy and reduce power consumption.

Note: When adjustments are completed, you may select another menu by pressing the **Menu** button.

Menu Adjustments

The **Audio** menu offers options to make sound enhancements while listening through the built-in speakers or to select digital audio options when connected to a Dolby Digital receiver though a (SPDIF) coaxial digital output.

How to Navigate:
Press the **MENU** button on the remote control. Navigate using ◄ ► arrow buttons to select **Sound**. Press the ▼ arrow button to highlight **Sound Mode**, then press the ► arrow button to select your sound preference from 4 factory options: Music > Movie > User > Standard .

To make more critical adjustments based on your own preferences in User

• **Sound Mode**
Press down ▼ arrow button to highlight **Sound Mode.**
Press ◄ ► button to select Music > Movie > User > Standard .

Music	Preserves the original sound. Good for musical programs.
Movie	Enhances treble and bass for a rich sound experience .
User	Select to customize audio settings.
Standard	Produces a balanced sound in all environments.
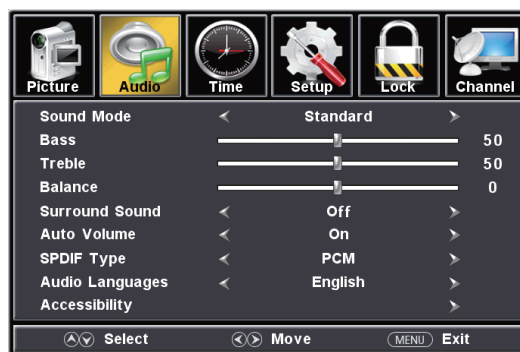

• **Bass**
Press down ▼ arrow button to highlight **Bass.**
Press ◄ ► buttons to increase or decrease low frequency intensity.

• **Treble**
Press down ▼ arrow button to highlight **Treble.**
Press ◄ ► buttons to increase or decrease high frequency intensity.

• **Balance**
Press down ▼ arrow button to highlight **Balance.**
Press ◄ ► buttons to adjust sound towards the left or right speaker.

• **Surround Sound**
Press MENU to enter the main menu, press◄ ► button to select Sound.

Press▲▼button to select among Surround Sound.

Press◄ ► button to select(Off / On)

• **Auto Volume**
Press MENU to enter the main menu, press◄ ►button to select Audio.
Press ▲▼ button to select among Auto Volume.
Press ◄ ► button to select(Off / On).

• **Audio Languages(only Digital TV mode)**
Press MENU to enter the main menu, press◄ ►button to select Audio.
Press ▲▼ button to select among Audio Languages.
Press ◄ ► button to select different Audio Languages.

• **MTS(only Analog TV mode)**
Press MENU to enter the main menu, press◄ ►button to select Audio.
Press ▲▼ button to select among MTS.
Press ◄ ► button to select(Stereo / SAP / Mono).

• **SPDIF Type**
Press MENU to enter the main menu, press ◄ ► button to select Sound.
Press ▲▼ button to select among SPDIF Type.
Press ◄ ► button to select(RAW / Off / PCM).

• **Accessibility**
Press down ▼ arrow button to highlight **Accessibility.**
Press ► buttons to Enter.

   • **VoiceGuide**
   • **VideoDescription**

Note: When adjustments are completed, you may select another menu by pressing the **Menu** button.

Menu Adjustments   Date & Time Settings

The **Time** menu includes adjustment of settings for your local time zone and daylight savings time. The clock will adjust automatically after the initial Channel Auto Scan of available broadcast channels in your area (see page 19 for TV Setup).

How to Navigate:
Press the **MENU** button on the remote control. Navigate using arrow ◀ ▶ buttons to select Time.

• Press down ▼ arrow button to highlight **Sleep Timer** then press the ▶ arrow button to select time to view before the television timer turns the set off: 5 Min > 10 Min > 15 Min > 30 Min > 45 Min > 60 Min > 90 Min > 120Min > 180 Min > 240 Min > OFF.
• Press down ▼ arrow button to highlight Time Zone then press the ▶ arrow button to select between: Eastern > Central > Mountain > Pacific > Alaska > Hawaii > Atlantic.

• Press down ▼ arrow button to highlight **Daylight Savings Time**. Navigate using the ◀ ▶ arrow buttons to turn this feature on or off.

• Press down ▼ arrow button to highlight **Time Format.** Navigate using the ◀ ▶ arrow buttons to turn this feature **12-hour or 24-hour.**

• Press down ▼ arrow button to highlight **Auto Clock.** Navigate using the ◀ ▶ arrow buttons to turn this feature **on or off.**

• **Clock** and Date are automatically set the first time the tuner receives a broadcast channel.

Troubleshooting

Check for a possible solution to a symptom before contacting a customer service representative.

Symptom	Possible Solutions
Cannot receive certain channels through the antenna	• Perform Channel Scan to add channels into the TV tuner memory. See page 18. • Readjust your antenna and retry Auto Channel Scan. • Signal from the TV station may be weak in your area.
No color	• Check the video installation of your external A / V equipment. See pages 15.
Video noise or choppy picture	• Readjust antenna. Keep TV away from noise sources, neon lights, and microwave appliances.
TV blocked on certain channels	• Perform Channel Scan to add channels into the TV tuner memory. See page 18. • Check whether the channel was deleted. See page 28. • Check parental control settings. See pages 26, 27. • Restore default settings. See page 23.
Cannot use certain functions	• If the item chosen in a menu is shown in gray text, that item cannot be selected in the current input.
No sound	• Check that connected audio cables are completely inserted. • Verify you have selected the correct audio source from your amplifier. See page 16. • Mute function may be enabled, press mute on the remote.
Black box on screen	• The "Text" option is enabled and no text is available. • Press the CCD button on the remote control to turn off.
No power	• Batteries in the remote control may need replacing. • Re-attach AC plug to wall outlet.
No picture	• Digital TV channel signal maybe weak, try another channel. • Press INPUT button to verify the desired input selected. • Re-connect the antenna or cable wiring. • Restore default settings. See page 23.
Remote control does not function	• Replace batteries with new ones. • Check that battery polarity is correct. • Point remote directly at the TV's IR receiver. See page 7.

LIMITED ONE-YEAR TELEVISION WARRANTY

We warrant this product to be free from defects in material and workmanship under normal use for a one-year period from the original date of purchase from an authorized ETEC dealer. We will repair or replace the unit free of charge should it become defective under this warranty, providing you, the original purchaser, submit proof of purchase (sales slip) along with the TV and all accessories.

Should you be missing any of the included accessories or other components (screws, pieces, etc.), please contact the Customer Support Center to secure a replacement. It is not necessary to bring the unit back to the store. When calling, please reference the parts list found in the Instruction Manual to help us accurately identify the missing parts and promptly provide replacements.

During the one-year period from the original purchase date, we will service or exchange the TV, at no charge. To obtain warranty service or replacement within the duration of the one-year warranty, please return the product and all accessories to the original place of purchase.

For technical support visit our website www.sibrandssupport.com or call the the ETEC Technical Support Center for technical assistance or troubleshooting at 1-855-994-3832, Monday - Saturday, 10:00AM to 7:00PM EST.

There are no consumer serviceable parts contained in this product and any attempt by the owner to service or repair the unit will immediately void all warranty coverage.

This warranty does not cover any product which has been subject to damage due to an act of nature, misuse, neglect, accident, abuse, outdoor use, commercial use, or modification of, or to, any part of the product, including the antenna. Damage to any external media such as DVD, CD, and/or USB or other memory devices are not covered nor is the cost incurred in shipping the unit for warranty repair. Under no circumstances shall ETEC be liable for any loss (direct, indirect, incidental, foreseen, unforeseen, special or consequential) or for any damage arising out of, or in connection with, the use of this product.

UNDER NO CIRCUMSTANCES WILL ETEC BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES.

This warranty does not cover re-manufactured units, or product sold 'As Is'.

This warranty is valid only to the original purchaser of the Product in the United States and Canada and grants specific legal rights.
